The Car Connection Maintenance Schedule kit

A must for the car owner or soon to be car owner, organizing and planning vehicle maintenance is a no brainer with our scheduler. We have adopted the saying K.I.S.S. Keep It Super Simple, that is just what we have accomplished. While designing the Car Connection Maintenance Schedule we were keeping in mind those who are not very familiar with automobiles. Everything you need to track your vehicles maintenance is all included in the kit. The items on your vehicle requiring attention on a regular basis are all listed for you just like you would find on a grocery list. Simple and easy to read, Mommamotormouth has taken the time to include an instruction sheet with and each kit, It's pretty easy to understand she says since it has been written by a woman! I am not sure I like how she says that. Order your Car Connection Maintenance Schedule kit today and begin to see how easy and beneficial it is to have your vehicle maintenance organized. If you like to have a reliable vehicle, that performs to it's fullest and maintains its maximum resale value if these points are as important to you as they are to me then you need one of my Car Connection Maintenance Schedule kits. Our kit will also help you to budget for your auto repairs, since you will know ahead of time what requires servicing next. We encourage you to ask your service center to provide you with a detailed estimate for the next service items coming due on your schedule. This will help you in budgeting for repair work.

The Car Connection Maintenance kit works with all makes and models, however we do suggest to consult with your owners manual for further details. Our schedule is a general outline for routine vehicle maintenance, some models may require special maintenance not listed on our schedule.

Mamamotormouth here, I grew up in the 60's and 70's raised by a single parent. My mother did her best, but could not always put good nutritious food on the table. Children should never have to go hungry because of the unfortunate position they are born in. To help this I have decided to sell scarves to help raise much need funds for Feed the Children Canada. Each scarf is approximately 6" x 42". They are hand knitted from Bernat "Boa" yarn. This is a fun yarn that looks almost like feathers. The scarves are soft, light and very warm. They come in many colors. They are \$20.00 each plus \$2.89 shipping and taxes, a total of \$22.89. \$5.00 will go directly to Feed the Children Canada. Fill out the information on the front of the order form, and circle the color of scarf. Thank you for your support.
